MEMORANDUM FOR: Director of Logistics

Mike:

1. Will you please have forthwith prepared a paper that I might use at the DCI Winter Conference at ☐ in February which, in general terms, sets forth the pros and cons of our determining to erect a building on the Langley campus designed either for special purpose use or for "people use." The paper does not have to be overly detailed in nature or in length, but it should seize on the major issues and considerations.

STAT

2. In connection with this paper, you might endeavor to make some low profile inquiries of GSA as to the procedures for qualifying under the SLUC concept for funds to actually erect the building.

3. I will be happy to discuss this matter with you in a little more detail if you like. In any event, we should have receipt of the paper no later than 10 January.
